CINEMATOGRAPHY

This course is designed to explore the aesthetics, techniques, and technology of cinematography and how it is currently practiced in the television and motion picture industry. Some of the topics of study will include (1) the style and look of camera work present in today's films and television (2) the style, aesthetics, and techniques of several genres and their distinguishing characteristics (3) composition, movement, and framing (4) cameras, film and video, their care and handling (5) film stock and the relationship of the lab/transfer house and the cinematographer. Class meetings will consist of lectures, group discussions, inclass demonstrations, viewing of contemporary films, shooting, and reviewing of student projects.

LECTURER

Nuresha Perkasa or better known by the name of Resha Perkasa has involved in the Film Industry since 2005. In the beginning, he started as a camera operator in a collaboration television series between Indonesia and Singapore. Later he got into the industry as a Film Loader (celluloid) and Camera Assistant and Operator for several feature films. He was involved in many Video Clips and PSA projects, and lately he's working on many TV shows or documentary programs for foreigner companies.
