ALUMNI

I really like the SAE curriculum which is very concentrated and focuses on what is important. The concept of learning in small groups helps a lot and makes it a very effective learning experience.

**3D ANIMATION  
& VISUAL EFFECTS**

# COURSE OVERVIEW

Undertake FTV program with concentration in 3d Animation & Visual Effects at SAE and build expertise in all facets of animation.

Students will develop fundamental skills and knowledge in this exciting industry in areas such as 3D modeling, character animation, rigging, textures, project management, teamwork, lighting, rendering and compositing.

Developing a solid understanding of these areas provides students with a solid foundation and context for further study before exploring in detail the specialist areas.

During their time at SAE, students will learn on industry-standard software such as Maya, Autodesk 3D MAX, and the Adobe Creative Suite.

Students will undertake specialised units designed for students to participate in real-world projects under the guidance of expert SAE staff. Through this unique teaching style, students will demonstrate their skills and technical knowledge in a collaborative and creative studio-based learning environment.

# COURSE INFORMATION

Animation and visual effects are pure imagination. Our Bachelor of Animation and Visual Effects is all about building your character and credentials by giving you the hands-on experience that is required in the exciting industry.

You will study multiple aspects of animation industry. It all starts with traditional skills such as sketching and life drawing. The course then moves into more sophisticated and technically challenging areas such as 3D modeling, rigging, design, textures, lighting, rendering and compositing.
